## Film/Sound Technician

Computer Science graduate with a passion for film and music, demonstrated work ethic, lifelong knack for technology, and a good ear for high quality sound. Currently seeking a role in a high thriving and creative environment. Passionate about creating the highest quality product and bringing a wide range of skills and knowledge to the job.

---

### KEY SKILLS & QUALIFICATIONS

Cable Wrapping (Over/Under)	Signal Flow	Organizational skills
Experienced Ear for Sound	Mixing/Mastering Experience	Highly Detail-Oriented
Microphone Placement	Operation of Mixing Board/Console	Communication with Clients
Audio Recording/Editing (Protocols)	Basic Film Lighting Knowledge	Creative Problem-Solving

---

### EDUCATION & TRAINING

**B.S. Degree, Computer Science** | UNIVERSITY OF NORTH CAROLINA-WILMINGTON (Dec 2018)  
*Concentration in Digital Arts; Dean's List Member (Four Semesters)*

#### IATSE 491 R.I.D.E Film Training Program

*Worked with a specialized mentor to learn specific skills pertaining to sound in film Master classes from various departments including sound, lighting, construction, set decoration, props Hands on training setting up a mock film set, gained overall knowledge of how film industry operates*

---

### TECHNOLOGY PROFICIENCY

- 6 years experience working with Protocols and other DAW audio editing software
- Experience operating mixing consoles (routing, gain structure, equalization, compression)
- Knowledge and practical application of microphone types(Condenser/dynamic) and pickup patterns (Cardioid, Hyper-cardioid, Omni, etc.)
- Knowledge of various cable types: XLR, TRS, SpeakOn, Midi, etc.
- Understanding of phase alignment when using multiple microphones
- Currently learning Dante audio protocol
- Proficiency using Adobe Creative Cloud; Premiere, Illustrator, Photoshop, InDesign

---

### EMPLOYMENT HISTORY

**STAGEHAND • Live Nation** JULY 2021 – CURRENT  
Worked in a fast paced environment setting up stage lighting and sound equipment. Increased ability to quickly adapt to new setups/challenges. Learned how to wrap cable quickly and correctly.

**HOUSE INSPECTOR • Lewis Realty** AUGUST 2014 – 2021  
Follow strict protocols and procedures related to house specifications/cleanliness, consistently meet tight deadlines, and document all findings in the computer system with detailed written reports.

**AUDIO TECHNICIAN • University of North Carolina Wilmington** DECEMBER 2014 – 2017  
Applied audio engineering skills for the University, involving operation of a complex soundboard and extensive mixing/mastering experience utilizing industry standard DAW software (Protocols).
