There are more shows where I only day played a bit, and some short commercials. Then there are a few Indies and low budgets where you wear many hats, but I have all but forgotten those days. The bulk of my experience lies in big budget TV and Med to Big budget Film. I am comfortable enough to handle most of the situations that arise, and experienced enough to ask for help on the things I’m not familiar with. I come with support from some very experienced people in the industry.

I will supply references upon request.

Thanks again for your time and Consideration

Doug Kelejian
